## GENERAL OVERVIEW

### **Executive Summary**

The federal American Rescue Plan Act of 2021, Public Law No. 117-2, 135 Stat. 4 (“ARPA”) was signed into law on March 11, 2021. The Act amended the federal Social Security Act to add Section 602 and, by doing so, created the Coronavirus State and Local Fiscal Recovery Fund (“SLFRF”). The Act appropriated funds to the State of Alabama and other states to support their response to the impact of Covid-19 on their communities, residents, and businesses, and to aid in efforts to contain Covid-19. Alabama’s allocation of the Coronavirus State and Local Fiscal Recovery Fund is \$2,120,279,417, received in two tranches. The first tranche, \$1,060,139,708.50, was appropriated by the State of Alabama Legislature during the 2022 Session and was included in the 2022 Annual Report.

During this reporting period, the State of Alabama Legislature appropriated the second tranche, \$1,060,139,708.50, of the State’s American Rescue Plan Act State Fiscal Recovery Fund Funds.

The second tranche of the State’s Fiscal Recovery Funds has been appropriated for the following purposes:

1. Responding to the Public Health Emergency:
  - a. Reimbursements to hospitals and nursing homes of eligible covid-related expenses;
  - b. Reimbursement of covid-related expenses incurred by public employee health plans;
  - c. Mental health supports of programming;
  - d. Telemedicine supports for hospitals; and,
  - e. Clinical trial access.
2. Responding to Negative Economic Impacts - Community-based programming to address needs of negatively impacted communities.
3. Infrastructure:
  - a. Broadband; and,
  - b. Water and wastewater projects throughout the state.
4. Response and Mitigation:
  - a. Covid-related administration needs of the State’s Unemployment Insurance Fund; and,
  - b. Administrative costs of SFRF programming.

## Uses of Funds

### *a. Public Health*

During this reporting period, the State Legislature appropriated a total of \$339,175,000 of the State's Fiscal Recovery Fund ("SFRF") to address covid-related public health needs of the State. Funds were appropriated to provide reimbursement of eligible covid-related expenses to hospitals and nursing homes located within Alabama. This funding was intended to assist with the additional costs incurred providing healthcare during the Covid-19 pandemic as well as ongoing Covid-19 treatment expenses. Included in this appropriation are SFRF for reimbursement of covid-related expenses incurred by public employee health plans, mental health supports, telemedicine supports for hospitals, and clinical trial access.

### *b. Negative Economic Impacts*

During this reporting period, the State Legislature appropriated a total of \$55,000,000 of the State's Fiscal Recovery Funds to support negatively impacted communities. The State is currently executing MOAs with agencies and organizations to provide support to school-aged children with learning loss and social-emotional slide, domestic violence prevention and victims' assistance, senior citizen social reengagement/reconnection, senior access to health enhancement programs, nutrition assistance via food banks, mental health supports and programming, and access to housing.

### *c. Public Health-Negative Economic Impact: Public Sector Capacity*

Not applicable. There were no State Fiscal Recovery Funds expended during this reporting period for programs addressing the public sector capacity caused by Covid-19.

### *d. Premium Pay*

Not Applicable. There were no State Fiscal Recovery Funds expended during this reporting period for premium pay.

### *e. Water, sewer, and broadband infrastructure*

During this reporting period, the Alabama Legislature appropriated \$400,000,000 for drinking water and clean water initiatives across the state. These funds are in addition to the prior appropriation of \$225,000,000 being administered by the Alabama Department of Environmental Management (ADEM). ADEM is tasked with deploying these funds to address longstanding problems that have plagued water and sewer systems across the state for decades. The SFRF allocations will improve access to clean water to the citizens of Alabama through investments in water and sewer infrastructure projects and focused fundings to address lack of access to sewer systems in Alabama's Black Belt.

Also, during this reporting period, the Alabama Legislature appropriated \$260,000,000 for broadband initiatives and grant programs. The Alabama Office of Information Technology has been allocated \$15,000,000 of this appropriation to modernize and harden the State's network, improve cybersecurity and security-related regulatory compliance. The Alabama Department of Economic Affairs has been allocated the remaining \$245,000,000 to administer in addition to its prior allocation of \$85,000,000. ADECA's priorities include: 1) to the greatest extent possible, public funds will be used to deploy infrastructure with a lifetime measured in decades to provide long-term value; 2) public funds will be leveraged to attract and increase private broadband investment in Alabama; 3) incentivizing widespread deployment rather than the most attractive areas; and 4) an ultimately self-supporting network.

*f. Revenue Replacement*

During the prior reporting period, the State of Alabama appropriated the available revenue replacement component of the State Fiscal Recovery Fund during two Special Sessions of the Legislature. That calculation resulted in a total of \$536,796,346 to be utilized for the following eligible projects and funding programs in the provision of government services: support of telemedicine, providing healthcare and related services, reimbursements for public safety needs, the construction of replacement correctional bed facilities, and support for rural hospitals, volunteer fire departments, and emergency services providers. During this reporting period, there was no revenue replacement calculation available to the State of Alabama.

## Promoting equitable outcomes

During this reporting period, the majority of ARPA State Fiscal Recovery Fund programs have relied on formula-based allocations such as bed counts or pro-rata distributions within the individual program. Where not practical or feasible to utilize a formula-based allocation, program funds are allocated to provide broad relief and support to intended populations and impacted communities state-wide.

Funding allocations for drinking water and wastewater projects have followed the policies of the State's existing Revolving Fund processes but also utilizing a needs-based assessment with a special focus on emergency and high need projects. ADEM will provide funding, in the form of grants to disadvantaged communities for water and wastewater infrastructure improvements. The Justice40 Mapping Tool, which addresses several key critical categories: climate change, clean energy and energy efficiency, clean transit, affordable and sustainable housing, workforce development, legacy pollution, health burdens and clean water and wastewater infrastructure improvements will be used to identify disadvantaged communities that are marginalized and underserved. Addressing these critical categories will ensure that funding is provided to communities with projects that enable water and wastewater systems to be more resilient to all threats-whether it is natural disasters, climate change, or threats such as bioterrorism and cyber-attacks. The program will also provide financial assistance in the form of principal forgiveness to disadvantaged communities for water and wastewater infrastructure needs.

Further, these applications are being assessed with consideration for projects that improve access to drinking water and wastewater services in communities that have been disproportionately affected by Covid-19 or lack access to local funding. In addition to providing funds to water and wastewater systems, there is up to \$10,000,000 available for demonstration wastewater projects in Alabama's Black Belt. These projects will target problems such as soil conditions that prevent absorption of wastewater from septic systems, failing sewer or septic systems, the use of "straight pipes" in the absence of a functioning system, and other issues related to sparsely populated, rural areas of the Black Belt.

For the water and wastewater infrastructure allocation of ARPA State Fiscal Recovery Funds, administrators have focused on:

1. To protect the public health and the environment and promote the completion of cost-effective water treatment, storage, distribution facilities and wastewater treatment facilities.
2. To fund projects which will have a positive impact on public health and ensure compliance with the Safe Drinking Water Act and Clean Water Act.
3. To fund projects which address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities.
4. To meet public health and environmental needs of disadvantaged communities with malfunctioning on site treatment systems that are either identified as a health hazard by the State Health Department or adversely affect water quality.

For the broadband allocation of ARPA State Fiscal Recovery Funds, administrators have focused on:

1. Goals: ADECA has developed a state broadband availability map. The map indicates areas without service throughout the State. Priority will be given to projects that will address the needs of unserved and underserved areas. The program proposes to provide middle-mile infrastructure to support last-mile service to unserved, underserved, marginalized, or adversely affected groups. The scoring strategy to promote projects meeting these criteria is discussed above.
2. Awareness: ADECA's funding opportunity announcement will be available on ADECA's website and sent to a statewide distribution list of ISPs and other interested parties.
3. Access and Distribution: As a statewide network, the program seeks to minimize differences in levels of access to benefits and services across groups. ADECA will conduct an application workshop to ensure all providers know the eligibility criteria.
4. Outcomes: The program's intended outcomes are focused on closing gaps and coming closer to reaching universal levels of service.

Additional consideration will be given to projects submitted by female, minority, or disadvantaged businesses. Additionally, applicants committing to utilizing female, minority, or disadvantaged businesses as subcontractors or vendors will receive additional consideration. The State is seeking a statewide middle-mile network, providing equitable access throughout the State, including areas that have historically been without access.

Regarding future allocations for future programs, the State intends to ensure that all individuals and organizations can access information about available programs through press releases, partnerships with community organizations, professional associations, and other advocacy groups.

## Community Engagement

As provided earlier, the 2023 \$400,000,000 legislative appropriation for drinking water and wastewater projects is being deployed throughout the State of Alabama. The Alabama Department of Environmental Management is administering these funds with a public website, <https://alabamawaterprojects.com/>, providing program and application information as well as their longstanding direct communication with public water and wastewater systems.

In addition to the water project allocations, the 2023 legislative appropriation for broadband projects will be administered by the Alabama Digital Expansion Division of the Alabama Department of Economic Affairs. The Digital Expansion Division's public website, <https://adeca.alabama.gov/broadband/>, provides information on Alabama's expansion efforts, access to webinars and workshops, and grant application materials, as well as future awards.

The Alabama Department of Finance is administering programs for healthcare and emergency services providers, mental health, and community assistance programs with an emphasis on the covid-related needs of children and seniors as well as other impacted communities such as victims of domestic abuse and foster children. Information about those programs may be found at <https://frf.alabama.gov/> including expenditure reports, links to news and other resources and contact information for program administration.

Regarding all SFRF allocations, the State continues to ensure that individuals and organizations can readily access information about available programs through press releases, partnerships with community organizations, professional associations, and other advocacy groups.

## Labor Practices

During the reporting period, ARPA State Fiscal Recovery Funds have been utilized for two areas of infrastructure. The first is water and wastewater projects. Funding will be awarded to local water authorities who are subject to state statutes and/or local ordinances governing the construction of public water and wastewater infrastructure.

The second area is in the construction of replacement bed facilities for the Alabama Department of Corrections. The construction itself is a design-build delivery method with a minority vendor program integrated into the project. The design-build contractor procures subcontracts via competitive process, with a minority business enterprise plan incorporated therein, and is required to follow all applicable laws and policies. The Alabama Minority Vendor Program provides guidance to vendors to compete for public construction, goods, and professional services contracts. Information on the program is available at: <https://mvpalabama.com/>.

For all infrastructure projects, the State will continue to follow all federal ARPA regulations. As necessitated by ARPA rule, local hiring is strongly encouraged.

There are no other infrastructure project funds expended during this reporting period.

## **Use of Evidence**

During this reporting period, many ARPA State Fiscal Recovery Fund programs have relied on formula-based allocations such as bed counts or pro-rata distributions within the individual program and, as such, the use of evidence-based evaluations is not applicable to those programs. Fundings for community assistance, mental health supports, and other assistance programs will provide reporting on performance indicators consistent with evidence-based evaluations.

## **Performance Report**

During this reporting period, the majority of individual ARPA State Fiscal Recovery Fund programs have relied on formula-based allocations such as bed counts or pro-rata distributions within the individual program and, as such, the State has not utilized performance management outcome measure for those programs as their intended goal was to provide reimbursements for covid-related expenditures.

The allocations for broadband and water and wastewater infrastructure are still in the application and application analysis stage of development and deployment. As these programs continue to mature, performance management will be incorporated into their future reporting with the key performance indicators for each program.

The allocations for community-based programs to address the negative impacts of the pandemic are still largely in the application and application analysis stage of development. As these programs mature, performance management will be incorporated into their future reporting with the key performance indicators for each program.

## **PROJECT INVENTORY**

The State of Alabama's State' Fiscal Recovery Funds have been appropriated for the following purposes:

1. Responding to the Public Health Emergency:
  - a. Reimbursements to hospitals and nursing homes of eligible covid-related expenses;
  - b. Reimbursement of covid-related expenses incurred by public employee health plans;
  - c. Mental health supports of programming;
  - d. Telemedicine supports for hospitals; and,
  - e. Clinical trial access.
2. Responding to Negative Economic Impacts - Community-based programming to address needs of negatively impacted communities.
3. Infrastructure:
  - a. Broadband; and,
  - b. Water and wastewater projects throughout the state.
4. Response and Mitigation:
  - a. Covid-related administration needs of the State's Unemployment Insurance Fund; and,
  - b. Administrative costs of SFRF programming.

Please see Appendix for Budget, Obligations, and Expenditures for recipients participating in the following Alabama State Fiscal Recovery Fund programs.

## Responding to the Public Health Emergency

### Hospital Reimbursement Program

<u>Appropriated Amount:</u>	\$180,000,000
<u>Adopted Budget Amount:</u>	\$180,000,000
<u>Expended Amount:</u>	\$175,356,278
<u>Expenditure Category:</u>	1-Public Health; 1.1-COVID-19 Vaccination, 1.2-COVID Testing, 1.3 COVID-19 Contact Tracing, 1.5-Personal Protective Equipment, 1.6-Medical Expenses, 1.7-Other Public Health Expenses, 1.10-COVID-19 Aid to Impacted Industries, 1.14-Other Public Health Services, 7-Administrative; 7.1 Administrative Expenses
<u>Project Status:</u>	Completed less than 50%

#### Program Overview

- The Hospital Reimbursement Program has been allocated a total of \$180,000,000 to provide reimbursement of eligible medical expenses to hospitals within the State of Alabama for the purpose of responding to or mitigating the effects of Covid-19 pandemic and public health emergency. Eligible expenses include costs incurred for medical care, testing, contact tracing, purchases of personal protective equipment, near- and long-term needs for care services, and other costs incurred in the treatment of Covid-19. The State of Alabama executed Memoranda of Agreement with the Alabama Health Research and Education Foundation, Inc. a non-profit corporation, to administer the program on behalf of the State.
- <https://frf.alabama.gov/resources.aspx>

#### Use of Evidence

- The goal of the Hospital reimbursement program is to provide funding to hospitals for their non-reimbursed covid-related expenses. The purposes of the program can be found in the Memoranda of Understanding between the Alabama Department of Finance and the Alabama Health and Research Education Foundation at the website provided above.
- This program was funded via three appropriations by the Alabama State Legislature of \$40,000,000, \$40,000,000 and \$100,000,000.

#### Performance Report

- Spending reports are available at: <https://frf.alabama.gov/resources.aspx>
- As this is a reimbursement of eligible costs program, there are no key performance indicators to provide outside of the reimbursement reporting.
- There are no applicable mandatory performance indicators in the relevant areas to be reported for this program.

## Nursing Home Reimbursement Program

Appropriated Amount: \$180,000,000  
Adopted Budget Amount: \$180,000,000  
Expended Amount: \$ 80,000,000

Expenditure Category: 1. Public Health; 1.4-Prevention in Congregate Settings  
1.6-Medical Expenses including Alternative Care Facilities  
7-Administrative; 7.1 Administrative Expenses.

Project Status: Completed less than 50%

### Program Overview

- The Nursing Home Reimbursement Program has been allocated a total of \$180,000,000 to provide reimbursement of eligible medical expenses to hospitals within the State of Alabama for the purpose of responding to or mitigating the effects of Covid-19 pandemic and public health emergency. Eligible expenses include costs incurred for medical care, testing, contact tracing, purchases of personal protective equipment, near- and long-term needs for care services, and other costs incurred in the treatment of Covid-19. The State of Alabama executed Memoranda of Agreement with the Alabama Nursing Home Association Education Foundation, a non-profit corporation, to administer the program on behalf of the State.
- <https://frf.alabama.gov/resources.aspx/>

### Use of Evidence

- The goal of the Nursing Home Reimbursement Program is to provide funding to nursing homes for their non-reimbursed Covid-related expenses. The purposes of the program can be found in the Memoranda of Understanding between the Alabama Department of Finance and the Alabama Nursing Home Association Education Foundation at the website provided above.
- This program was funded via three appropriations by the Alabama State Legislature of \$40,000,000, \$40,000,000 and \$100,000,000.

### Performance Report

- Spending reports are available at: <https://frf.alabama.gov/resources.aspx>
- As this is a reimbursement of eligible costs program, there are no key performance indicators to provide outside of the reimbursement reporting.
- There are no applicable mandatory performance indicators in the relevant areas to be reported for this program.

*Note: The Nursing Home COVID-19 Recovery Fund program was reported incorrectly for Quarter 1 as it was listed by individual facility. This was corrected in quarter 2 and is listed as a single report.*

## Telemedicine

<u>Appropriated Amount:</u>	\$14,000,000
<u>Adopted Budget Amount:</u>	\$ 5,000,000
<u>Expended Amount:</u>	\$ 26,129
<u>Expenditure Category:</u>	6- Revenue Replacement; 61-Provision of Government Services
<u>Project Status:</u>	Completed less than 50%

### Project Overview

- The Alabama Legislature appropriated a total of \$14,000,000 for the provision of telemedicine and related services. At this time, the Department of Finance is intaking and analyzing requests for this funding and expects to make specific allocations during August, 2023.
- \$5,000,000 of this funding was allocated from the State's Revenue Replacement calculation. Cat. 6-Revenue Replacement; Subcat.6.1-Provision of Government Services.
- Application information is available at: <https://frf.alabama.gov/healthcare.aspx>

## Public Sector Health Insurance Reimbursements Program

Appropriated Amount: \$80,000,000  
Adopted Budget Amount: \$80,000,000  
Expended Amount: \$75,790,411

Expenditure Category: 1. Public Health; 1.1-COVID-19 Vaccination, 1.2-Covid Testing,  
1.6-Medical Expenses  
Project Status: Completed

### Project Overview

- The Alabama Legislature appropriated a total of \$80,000,000 to reimburse Covid-19 related expenses incurred by the State Employees Insurance Board and Public Education Employees' Health Insurance Plan

### Use of Evidence

- Not applicable at this time.

### Performance Report

- Not applicable at this time

## Mental Health

<u>Appropriated Amount:</u>	\$25,000,000
<u>Adopted Budget Amount:</u>	\$ 0
<u>Expended Amount:</u>	\$ 0
<u>Expenditure Category:</u>	1. Public Health; 1.12-Mental Health Services
<u>Project Status:</u>	Not started

### Project Overview

- The Alabama Legislature appropriated a total of \$25,000,000 for the provision of mental health services and supports. At this time, the Department of Finance is intaking and analyzing requests for this funding and expects to make specific allocations during August, 2023.
- Application Information is available at: <https://frf.alabama.gov/healthcare.aspx>

### Use of Evidence

- Not applicable at this time.

### Performance Report

- Not applicable at this time

## Clinical Trial Access Program

<u>Appropriated Amount:</u>	\$20,000,000
<u>Adopted Budget Amount:</u>	\$20,000,000
<u>Expended Amount:</u>	\$ 0
<u>Expenditure Category:</u>	1. Public Health; 1.14-Other Public Health Services
<u>Project Status:</u>	Completed less than 50%

### Project Overview

- The Alabama Legislature appropriated a total of \$20,000,000 to assist with the development and deployment of a clinical trial access program to increase access to clinical trials for the citizens of Alabama.

### Use of Evidence

- Not applicable at this time.

### Performance Report

- Not applicable at this time

## Responding to Negative Economic Impacts

### Community Assistance Programs

<u>Appropriated Amount:</u>	\$55,000,000
<u>Adopted Budget Amount:</u>	\$ 0
<u>Expended Amount:</u>	\$ 0
<u>Expenditure Category:</u>	2. Negative Economic Impacts; 2.1-Household Assistance (Food Programs), 2.13-Healthy Childhood Environments (Services to Foster Youth), 2.25-Addressing Educational Disparities (Academic, Social, and Emotional Services),
<u>Project Status:</u>	Completed less than 50%

#### Project Overview

- The Alabama Legislature appropriated a total of \$55,000,000 to support negatively impacted communities. The State is currently executing MOAs with agencies and organizations to provide support to school-aged children with learning loss and social-emotional slide, domestic violence prevention and victims' assistance, senior citizen social reengagement/reconnection, senior access to health enhancement programs, nutrition assistance via food banks, mental health supports and programming, and access to housing.

#### Use of Evidence

- Not applicable at this time. The allocations for community-based programs to address the negative impacts of the pandemic are still largely in the application and application analysis stage of development. As these programs mature, performance management will be incorporated into their future reporting with the key performance indicators for each program.

#### Performance Report

- Not applicable at this time.

## Infrastructure

### Broadband Infrastructure

<u>Appropriated Amount:</u>	\$330,000,000
<u>Adopted Budget Amount:</u>	\$ 85,000,000
<u>Expended Amount:</u>	\$ 0
<u>Expenditure Category:</u>	5. Infrastructure; 5.19-“Last Mile Projects”, 5.21-Other Projects 6. Revenue Replacement; 61-Provision of Government Services

Project Status: Completed less than 50%

#### Program Overview

- The network is planned to be a 3000 linear mile fiber optic infrastructure. This total includes over 2500 miles of leased dark fiber from eight Alabama Electric Cooperatives and Investor-Owned Utility Alabama Power. The leases are in the form of Indefeasible Rights of Use or standard dark fiber leases with a term of 20 years. In addition to the leased dark fiber, almost 500 miles of new fiber optic cable segments will also be constructed. Together with new optical and packet equipment installed in colocation facilities throughout the state, these assets will form a world class statewide network that can offer segmented IP services, optical wavelengths, and other protected services from the FUN points of presence across the state.
- <https://adeca.alabama.gov/broadband/>

#### Use of Evidence

- As of the date of this report, ADECA has not finalized programming and cannot report on this section at this time. Service-level agreements have been drafted and are ready customers once the network is complete. It is estimated that the network will be operational in May of 2024.

#### Performance Report

- ADECA has awarded a subaward to the Fiber Utility Network. The subrecipient is in the early stages of project implementation. However, according to their most recent report, 20-year indefeasible rights of use (IRUs) or standard dark fiber leases are in place for approximately 52% of the proposed linear miles of the leased dark fiber planned for the Phase 1 FUN Network as shown on the map on the following page. All Co-op boards have approved the intent to lease the remainder of the fiber. The remaining dark fiber leases are anticipated to be in place within the next 30-60 days. It is estimated that the network will be operational in May of 2024.

## Cybersecurity

<u>Appropriated Amount:</u>	\$15,000,000
<u>Adopted Budget Amount:</u>	\$15,000,000
<u>Expended Amount:</u>	\$ 0
<u>Expenditure Category:</u>	5: Infrastructure; 5.21-Other Projects
<u>Project Status:</u>	Completed less than 50%

### Program Overview

- The Alabama Office of Information Technology has been allocated \$15,000,000 to modernize and harden the State's network, improve cybersecurity and security-related regulatory compliance.

### Use of Evidence

- Not applicable at this time.

### Performance Report

## Water and Wastewater Projects

<u>Appropriated Amount:</u>	\$615,000,000
<u>Adopted Budget Amount:</u>	\$615,000,000
<u>Expended Amount:</u>	\$ 3,968,949
<u>Expenditure Category:</u>	5-Infrastructure; 5.1-Clean Water (Centralized Wastewater Treatment), 5.2-Clean Water (Centralized Wastewater Collection and Conveyance) 5.5-Clean Water (Other Sewer Infrastructure), 5.6-Storm Water, 5.10-Drinking Water (Treatment) 5.11-Drinking Water (Transmission and Distribution), 5.15-Drinking Water (Other Water Infrastructure)
<u>Project Status:</u>	Completed less than 50%

### Program Overview

- A total of \$625,000,000 of ARPA funds have been allocated to ADEM to improve access to clean water to the citizens of Alabama through investments in water and wastewater projects.
- <https://alabamawaterprojects.com/>
- As provided in the General Overview, The Justice40 Mapping Tool, which addresses several key critical categories: climate change, clean energy and energy efficiency, clean transit, affordable and sustainable housing, workforce development, legacy pollution, health burdens and clean water and wastewater infrastructure improvements will be used to identify disadvantaged communities that are marginalized and underserved. Addressing these critical categories will ensure that funding is provided to communities with projects that enable water and wastewater systems to be more resilient to all threats-whether it is natural disasters, climate change, or threats such as bioterrorism and cyber-attacks. To provide financial assistance in the form of principal forgiveness to disadvantaged communities for water and wastewater infrastructure needs.

## Alternative Clean Water Projects

<u>Appropriated Amount:</u>	\$10,000,000
<u>Adopted Budget Amount:</u>	\$ 5,000,000
<u>Expended Amount:</u>	\$ 915,329
<u>Expenditure Category:</u>	5-Infrastructure; 5.3-Clean Water (Decentralized Wastewater); 5.18-Water and Sewer (Other)
<u>Project Status:</u>	Completed less than 50%

### Program Overview

- A total of \$10,000,000 of ARPA funds have been allocated to improve access to clean water to the citizens of Alabama's Black Belt through investments in regional wastewater projects including clustered wastewater demonstration projects and engineered septic systems in Alabama's Black Belt areas of low population density, rural property, and/or soils with poor perc characteristics, where there is a finding of discharge of raw sewage onto the ground due to the utilization of straight pipes, failing septic systems, or similar circumstances. ADEM collaborated with Ms. Sherry Bradley of the Alabama Department of Public Health (ADPH) and Mr. Kevin White, Professor Emeritus, with the University of South Alabama in identifying Hale County and Lowndes County as sites to fund two types of pilot projects to demonstrate potentially viable solutions to the wastewater disposal problems experienced throughout the Black Belt.

Use of Evidence

- The healthcare programs funded by the SFRF were administered, where appropriate, by allocating funds according to bed count or a pro rata distribution of funds available in each program. Other healthcare programs were intended to address a widely held need resulting from the Covid-19 pandemic, such as delayed diagnoses due to postponed diagnostic testing and/or lack of access to healthcare that resulted at the onset of the Covid-19 pandemic.

Description	<p>Project Description: Health, Sanitation, and Security Issues  The homes and businesses along Highway 25 South have failing septic systems and would benefit greatly from a new sewer line installation. The manhole located near Piggly Wiggly has been relieved by the installation of a 24” sewer line designed to relieve all the manhole overflows. This line is currently under construction. Aging Infrastructure Many parts of the system are comprised of clay pipe that is cracked and broken. The City has used their own funds to improve many lines at a cost of \$3,000,000 over the last five years. They now need help in replacing the Plant. Reasonable Growth Columbiana has experienced a serious growth in population in the last 12 months. The Wastewater</p>
